The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/575,594	Applicant(s) NILSSON ET AL.	
	Examiner Sebastiano Passaniti	Art Unit 3711	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office action is responsive to communication received 04/11/2006 – application papers filed, including Preliminary Amendment and Priority papers; 03/19/2007 – Oath and IDS; 04/17/2007 – IDS.

Continuation Data

This application is a 371 of PCT/NO04/00310, filed 10/13/2004.

Drawings

The drawings were received on 04/11/2006. These drawings are acceptable by the examiner for examination.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Status of Claims

Claims 1-13, styled "AMENDED CLAIMS" and received 04/11/2006 are pending. The identification of claims 1-13 as the pending claims is consistent with the set of claims reviewed in the International Preliminary Report on Patentability (copy received 04/11/2006) and is further consistent with the fees collected for the submission of 13 claims.

A second set of claims numbered 1-18 and labeled simply "CLAIMS" are also of record, and were received 04/11/2006. These claims have not been acted upon for purposes of the current election of species requirement.

Applicant is respectfully requested to clarify the status of all pending claims.

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species I: Figures 1-8;

Species II: Figure 9;

Species III: Figure 10;

Species IV: Figures 11 and 12.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3711

The claims are deemed to correspond to the species listed above in the following manner:

Species I: Claims 6-13;

Species II: Claims 6-13;

Species II: Claims 1, 2, 3, 8, 10, 11, 12 and 13;

Species IV: Claims 1, 2, 4, 5, 8, 9, 11 and 13.

The following claim(s) are generic: None.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

Species I lacks at least one bracing means;

Species II lacks at least one bracing means;

Species III lacks cross stays;

Species IV lacks an intermediate plate and rectilinear side edge portions.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

Art Unit: 3711

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sebastiano Passaniti whose telephone number is 571-272-4413. The examiner can normally be reached on Monday through Friday (6:30AM - 3:00PM).
